

# We are a strategy and service design consultancy that helps people and organizations innovate and grow.

Rêve was founded on the belief in dreams. We started Rêve because we wanted to reinvent the strategy process. Studies show that 70 percent of all strategies fail, and we wanted to do things differently. We knew that there was power in combining the rigor of strategic management with the softer, more empathetic practices of design thinking and change management.

Today, we work with some of the world's biggest companies to co-create winning strategies and implement them in the marketplace. Passionate about catalyzing change, we work alongside our clients to democratize strategy, prototype innovative solutions and deliver compelling experiences that delight customers.
